Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: none of the prior art taught or suggested a liquid crystal display device comprising: a liquid crystal display screen panel for producing images and a projection lens for enlarging polarized light from the polarizing means and projecting the enlarged polarized beam onto the LCD screen panel, wherein the polarizing means comprises two lens arrays having a plurality of lenses. Examiner interprets the liquid crystal display screen panel as being an LCD panel containing liquid crystal, which produces the images, instead of merely a screen for display images projected onto it.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
